YOM KIPPUR CEREMONIES

TO END AT SUNSET TODAY Jewish Observance of Day of Atonement Marked by Special

Sermons in Synagogues.
Yom Kippur, the Day of Atonement, is being observed with special services in the Jewish syna-gogues. Observance of the day, which is of a penitential nature, began yesterday at sunset and is to

end at sunset today.

"On this day we feel ourselves standing before the Almighty," Rabbi Samuel Thurman declared in his sermon at the United Hebrew Temple, on Skinker road north of Wydown boulevard. "All our vanities, our egotisms, our worldly possessions, our false titles to honor, all these avail us as nothing. Either we come before God with all our heart and soul and might, or we come not before Him at all."

CHURCH RITES GIVEN STUDENTS IN STORM

Boys at Catholic School Were Called to Center of Building Unroofed in Tornado.

When the tornado descended on the 4200 block of Washington boulevard a week ago today, its approach was viewed by some of the teachers of the preparatory, or junior, seminary of the Roman Catholic diocese, housed in the old residence at No. 4244.

The teachers, looking from an upper window, saw two whirling black clouds join near the greentiled dome of the cathedral on Lindell boulevard. Then they saw the mass of blackness rushing upon

the seminary. The pupils, sitting in classrooms at the front of the house, saw only the sudden coming of darkness. As sheets of rain beat on the building, and the windows began to fall in fragments, the members of the faculty called the boys from their classes into the center of the build.

Priests Give Final Rites. In the darkness—for the light-ing current had failed—the boys were marshalled, some in the firstfloor hallway, some on the second floor. There, the priests gave final absolution to all the youths, who kneit quietly and with no sign of

A statue of the Virgin Mary, near the altar, was left unprotected from the rain, but remained standing. The building was unroofed.

From the seminary, the priest who had taken the sacrament went on foot to Mullanphy Hospital, two miles to the northeast. There he found the building partly ruined and about to be deserted. Hurrying to the chapel, he removed the sacrament there also, and took both to St. Teresa's Church, where

STUDENTS IN STORM

Boys at Catholic School Were Called to Center of Building Unroofed in Tornado.

When the tornado descended on ha 4200 block of Washington boulard a week ago today, its apwas viewed by some of the he preparatory, or juese, housed in the old sidence at No. 4244.

The teachers, looking from an per window, saw two whirling ack clouds join near the greentiled dome of the cathedral on Lindell boulevard. Then they saw the mass of blackness rushing upon

The pupils, sitting in classrooms t the front of the house, saw only he sudden coming of darkness. As heets of rain beat on the building, and the windows began to fall in fragments, the members of the culty called the boys from their classes into the center of the build-

Priests Give Final Rites. In the darkness-for the light-ing current had failed-the boys were marshalled, some in the firstloor hallway, some on the second floor. There, the priests gave final absolution to all the youths, who knelt quietly and with no sign of

masonry were falling. When the

building into the rain was one of the priests, who had taken the sacrament from its place in the chapel, while a part of the wall was giving way. A statue of the Virgin Mary, near the altar, was left unprotected from the rain, but ned standing. The building was unroofed.

who had taken the sacrament went on foot to Mullanphy Hospital, two iles to the northeast. There he ound the building partly ruined and about to be deserted. Hurrying to the chapel, he removed the sacrament there also, and took both to St. Teresa's Church, where he placed them in the altar.

Home Offered to Faculty.

The priests of the faculty went to St. Vincent's Church, Ninth and Barry streets, where they have a temporary home. The pupils were to St. Bridget's Parish School, Jefferson avenue and Carr sume the work of the seminary members of the faculty have been offered a home in St. Bridg et's parochial residence, where Faher Arthur White is pastor and

Father Ryder assistant The members of the faculty are he Very Rev. Justin A. Neulle, C. M., superior, and the Revs. August J. Alt. C. M.: John E. Green, C. M.; Timothy J. Flavin, C. M.; James E. Lilley, C. M.; Joseph J. Monaghan, C. M.; Herbert H. Sheldon, C. M., and Joseph Edwards M. As indicated by the letters after their names, all are members

Unaware of Tornado least 30 men near the area astated at the time the tornado struck were unaware of what was going on. They were 87 feet under ground at Vandeventer avenue and Lindell boulevard at work on the western branch of the Mill Creek

Having returned to their posts at 12:30 p. m., they worked until 1:05 p. m., when the power was cut off. After waiting for more than half an hour, one workman mbed a ladder to the surface, where he was told of the tornado. Work on the sewer was not re-sumed until Monday morning.

Drowned Negro Identified. The body of a Negro, recovered esterday from the Mississippi Rivr near Jefferson Barracks, was dentified at Coroner Bopp's norgue in Kirkwood as that of orge Smith, 52, who fell off a arge a week ago at Newhaven, on the Missouri River, 67 miles west

BOY SCOUTS REL**eased**

If you were a Boy Scout when the tornado came you heard the dio call for scouts and then you ampered. You kept on scamperg. too, practically until yesterday. They told the scouts yesterday was all right to quit and go ack to school, but a lot of them preferred to go on working for he Red Cross. School is tame stuff reside what the scouts have been ing this last week. A large force scouts, released by school prin pals, remains on duty at Red

ross Headquarters. Tornado relief isn't all show-off s the scouts found very soon. It s estimated by Scout Executive Earl Beckman that 90 per cent of the 6522 scouts in St. Louis turned out the first day. Being a Boy cout, you buckled on your hatchet and got your whistle and made for Red Cross headquarters. Or lse you went straight to the tornado zone where policemen and firemen told you what a kid could

Carrying messages, finding rela-ves of refugees, manning the ood tracks for the Red Cross, devering telegrams, directing traffic, helping clear away ruins, standing watch at Red Cross mergency stations, giving first Red Cross relief station, running miscellaneous errands—all this was he work of the Bey Scouts. Reorters saw the scouts everywhere. They were loading trucks at Moolah Temple where the big food center is. They were carrying tele-grams on Olive street, because the legraph companies' own messengers were swamped. Scouts rode with the food trucks and handed out sandwiches by thouands. Scouts ran errands at the leadquarters on Lindell cut-off. They escorted refugees to the Armory, They worked on Fairfax avenue searching ruins. On Cook wenue they helped refugees move.
The scouts were supposed to ork in shifts of 200 at a time ut so many boys came to watch the other boys work that they in-terfered, and had to be put to work, too. This enthusiasm couts to overdo the traffic direcon a little. One afternoon there vas a scout stationed at almost evry corner on Locust street and rogress up the street was exceed-ngly slow. But on the whole the outs won praise of traffic cops the way they filled in while poce were busy in the tornado area.

Boy Scont Hero.

One Boy Scout hero at least was

ade in the tornado crisis. All St. Louis Scouts honor the memory of William Farrell, whose exertions with his troop, despite a doctor's varning, caused his death. Dan eard, patriarch and idol of all Boy Scouts, has spoken in high traise of Farrell. Each troop in he city has its own record of dardeeds performed by scouts in he tornado area. Instances have cited where scouts acted to uiet children at schools hit by the ornado. A scout, it is said, turned n the first report of the collapse t Central High School. couts made reports of bodies un-ler wreckage and of living persons

"Lost" Boy Had Run Away. Red Cross workers tells of one Negro boy, 10 years old, who lived n style at Poro College with the refugees, telling harrowing tales and wondering what had happened to his family. He gave four different addresses for his residence, all of which proved to be wrong. It was four days before the Red Cross found his family and learned that he was merely "pretending." His house was not in the storm area but he had run away "to have some fun."

When a call comes in the name is checked in the various indexes and if there is no report, a worker is sent to the address where the person lived, or was last seen. The search goes on without a letup, from the person's residence, up to the time the person is accounted

WELCOME FOR LEVINE PLANNED

York City will officially welcome Charles A. Levine upon his return from Europe late this month. Grover A. Whalen, chairman of the Mayor's reception committee said today. Levine is expected to sail for home on the Leviathan,

There was some question whether Levine, who flew to Europe with Clarenez D. Chamberlin in the Columbia, would be given an official reception. Whalen, withou whom no reception is official of complete, said yesterday there had been insufficient time to make plans for the Levine reception, but

Niece's Claim Was for Service Rendered During a Period of Nine Years.

A jury in Circuit Judge Hogan's urt yesterday returned a verdict of \$5000 in favor of Mrs. Katherine Heidbreder, 5500 South Kingshighway, against the estate of Peter Hahn, together with interest dating from March 1, 1908, which makes the total judgment \$10,-

The judgment is based on a claim for services rendered to Hahn and his wife during a period of nine years dating from 1896 without pay. Mrs. Heidbreder, who was a niece of Hahn and was 16 years old when he and his wife ight her from Germany to live with them, set forth in her claim hat she cooked, scrubbed and washed for the Hahns and also source of Hahn Estate.

Hahn, a former saloonkeeper at Eleventh and Hickory streets, made an early investment in stock of the Burroughs Adding Machine Co., which venture caused him and his wife to eventually possess a joint estate of over \$1,000,000. She died in 1922 and he died three years later. By their joint will their property passed to certain relatives, friends and charitable organiza-tions. Hahn in later years was president of the Buckingham Ho-

The interest award in the verdict is based on the claim that on March 1, 1908, plaintiff's husband, W. F. Heidbreder, a meat market owner, who died last June, made demand upon Hahn for the money alleged to be due his wife and Hahn agreed to compensate her in his will if no suit was filed against him for the money. However, Mrs. Heidbreder was not mentioned in

Judge William Dee Becker of the Court of Appeals and Oreon E. Scott, as executors of the Hahn property, denied that the estate was indebted to Mrs. Heidbreder. They introduced evidence to the effect that Mrs. Heidbreder and

HOW A BONDSMAN DODGED PAYMENT OF \$5000 FORFEIT

THURSDAY EVENING, OCTOBER 6, 1927

After Judgment Was Given Morris Geeser Borrowed on Property for All It Was Worth.

Among cases of professional ndsmen investigated by the Circuit Attorney in a campaign to collect belated judgments on forfeited bail bonds for the Board of Educa-tion is one which discloses the sly methods which some bondsmen employ to beat the judgments. Morris Geeser, junk dealer and urety on a \$5000 bond that was forfeited, qualified as a bondsn on a statement that he owned the property at 2017 to 2023 Wash street and 1418 to 1432 North Twenty-fourth street, adding that he was in the iron business at 116-118 Commercial street, that he had

This was in May, 1922. Shortly thereafter a man who aid he was James Jeffries was arrested for highway robbery, and eleased on a bond of \$5000 signed y Geeser. Jeffries did not appear or trial and the bond was forfeited. Judgment on the forfeiture was obtained May 12, 1924, and an execution against Geeser's property was issued May 12, 1927. n June 10 last the property was old by Sheriff Schuler's office to tisfy the judgment.

money in the Broadway Savings Trust Co., and was worth \$70,000.

Property Sold for \$10. There was only one bidder, named Felberbaum, and his bid was \$10, for which the property was knocked down to him, despite the ridiculously low price. Proceeds of these sales go to the Board of Education for education al purposes, and Deputy Sheriff Flint, who conducted the sale and et the property go for \$10, did take the precaution to notify atorneys for the board. Attorneys or the board promptly had the set aside the sale on the ground hat the property was sacrificed

The Circuit Attorney took occaon to remind Sheriff Schuler, in letter commenting on this sale, decisions require that "the Sheriff in selling land under execution is he agent of both plaintiff and defendant and is bound to protect the nterests of both, and it is his duty o see that the property is not sacificed, and if the bids are grossly nadequate, he should return the ecution 'No sale for want of

But no deed was delivered to elberbaum, and the proceeding to et aside the sale is still pending. Investigators for the Board of ducation who have checked up on the property was incumbered with nortgages of \$11,000, prior to the ment under the forfeited bond, and since then has been blanketed with second and third mortgages amounting to \$7400. From this record it seems that Geeser obtained \$7400 from the property by idgment was obtained for the

Point of Prior Claim. But mortgages so placed after udgment is levied, do not take riority over the judgment, attorneys for the Board of Education say, and the holders of these mortgages must protect themselves by buying in the property in the event the sale to Felberbaum is set aside and a new sale made under the judgment. In that event the Board of Education would receive up to \$5000 in excess of the \$11,000 with which the property was incumbered before judgment was given, if it is sold for as much as \$16,-

The property, which consists of flats, has an assessed valuation of \$7500 and an investigation of its probable market value now is

In other words, Geeser gave roperty as surety to sign bonds for fees, which usually are very large fees from highway robbers, and when one of his robber clients ran off and the bond was forfeited, Geeser got from under the obligation by mortgaging the property for practically all it was worth, possibly more, and it appears the Board of Education holds the bag.

But Geeser is not signing any more bonds. The Circuit Judges have made new rules that make it hard for his kind, with the result that robberies are said to have decreased about 75 per cent. For the thief doesn't steal with impunity when his professional bondsman is not at the police station to have him released from custody immediately upon arrest, so that he can ply his trade to pay their bond

The grand jury, which began its sessions last Monday, is investigating sworn qualifications of professional bondsmen to see if any of them have perjured themselves. This inquiry was ordered by Circuit Judge Pearcy, in charge of the grand jury.

St. Joseph Votes Bridge Bonds. ST. JOSEPH, Mo., Oct. 6.— A cond issue of \$400,000 for construction of a free highway bridge over the Missouri River here, or purchase of the present Union Pacific bridge was carried Tuesday y a vote of 6501 to 2912. Bonds of \$15,000 to extend the city's parkway and street lighting systems carried by about the same vote.

P. H. Ross, New Jersey sissippi and Warrior rivers. Trade Consultant, Stresses Opportunities to Utilize Inland Waterways.

Development of the United States as a maritime nation depends on the Mississippi Valley, P. H. Ross, trade consultant of the city of Newark, N. J., former president of the National Marine League and the only honorary member of the Mississippi Valley Association, said today. Ross is attending the sixteenth annual convention of the American Associa tion of Port Authorities at Hotel

He pointed out in an interview that the building up of a merchant marine had been possible only through the support of the Middle West, and that, in turn, the pros perity of the valley depends on the development of foreign trade. Fifteen Years of Efforts.

"Fifteen years ago we had just one ship on the Pacific Ocean," he said. "James J. Hill had built the Dakota and the Minnesota to carry freight from his railroads, and one of them was wrecked. "In the East and on every coast those of us who were trying to develop American shipping began to see that we couldn't get anywhere without the Middle West, for the Middle West controls the majority in both houses of Congress. That was exemplified a few years later when a number of us in the East, working for a navigation improvement, could muster only one New York Senator and about 30 New York Congressmen. Then James E. Smith of St. Louis, president of the Mississippi Valley Association, goes to Washington and over night the other ready to jump at the

crook of his finger.

Middle West Gives Support.

"But our big job, in the beginning, was to get the Middle West out of its apathy. Success trembled in the balance until the war, and then, at last, the Middle West got solidly behind the Merchant Marine and has been back of it ever since. The Mississippi Valley did come out of its apathy. Who have been the bosses of American shipping, on the Shipping Board, for example? Middle Western men,

nearly every one of then "Along in February, 1919, people around St. Louis were pooh-poohing the barge service which the Government had just inaugurated on the Mississippi. Its importance ocean trade was obvious to us, and I came out here to urge that if the Middle West wanted to keep its waterway appropriation, it must

put business on the river. "Mr. Smith and a few others-I remember particularly Mr. Festus Wade, who died the other daysaw the sense of it, and a few months later those barges were going down the river chock-a-block From that day St. Louis and New Orleans started on their ocean port career.

"St. Louis is little further from the sea than Montreal, and not ican ports, on the Amazon, for in stance. Newark, a few years ago, was as much as inland city as Omaha. Under Mayor Thomas L. Raymond we spent \$11,000,000 on a channel to the sea, and now we have the very best thing in the port of New York. We are on the mainland of the continent, whereas New York is on three islands, and we can transfer ocean commerce from steamer to railroad at much

"Mississippi navigation can be increased a thousandfold. In Germany this river would be simply Ocean shipping is at least as important to this inland country as to the coast lands, for the agricultural products here are of great bulk and low value, as compared to the products of the industrial

"World trade, the life-blood of the whole country, therefore, is especially vital here. Competition has lost the sluggishness that followed the war. It is so severe now that every country must use every resource at hand. Considering the it would be suicide not to use the

Soviet Russia's Developement. Soviet Russia has developed its inland waterways to a point where the progress of the United States on great rivers like the Mississippi small in comparison, the con-ention was told today by V. V Toukholka, engineer for the Soviet

Series Heroes.

THE 1927 world series hero I is still in the making. The law of baseball averages premighty Babe Ruth, in seven world series features, has swatted about .250-far, far below his season's average. In four years with New York, Babe made 20 hits, which were matched by 19 strikeouts.

In the first three series of his pinch hitter and pitcher. He made one safety, with a batting average of .141.

Freak Heroes.

A times freaks have happened. Thevenow, not a .300 hitter normally, batted over .400 and led all the series regular hitters.

An example of the extremes to which form can go occurred back in 1906, when the White Sox played the Cubs. A substitute third-sacker named Rohe was forced into the game early in the series. Rohe had not done anything during the season. But for the remainder of the series he was the clouting fool. He doubled and doubled and doubled and mediate the doubled and d

So, if you want to pick your series hero, shut your eyes and stab a pin through the line-up. It's as good a guess as the next.

TY COBB, closing his twenty-I third season at Philadelphia, shook hands with Connie Mack and said he thought he had more baseball left in him just as good as the 1927 sample, for which Connie had paid something like

"You can come back next year at the same money, Ty," Connie responded.

One wonders how they do it. Cobb may still be a good player but he hardly is the drawing card Babe is. Nor is Philadelphia a big money-making club like the Yankees. There must more moncy in baseball than the average fan knows about if Philadelphia can toss off salaries of that sort. In one city we know they can't

pay it. That's St. Louis.

Kid Cobb Arrives.

TYRUS fooled the experts on they testified that an athlete could not navigate in his company on 40-year-old pins. Kid Cobb, arriving at the end of his twenty-third major league season, presents an astonishing array of figures to show that his attacking prowess, at least, is far

In proof that his legs are not 153 games during the recent season. He scored 105 runs in that time, made 175 hits, for an aver age of .357 and stole 22 bases!

It takes a ball player to do that, so don't let the Cobb kidders get away with too much stuff. Ty's fielding range has narrowed considerably, but the old boy still has the punch.

The MIRROR of PUBLIC OPINION.

THE FATHER OF ALL THE BURS. From the Boston Transcript.

TS IT possible that the discovery of the correspondence, manuscripts and private notes of James Boswell in a leaky attic of Boswell's Auchinleck Castle, in Scotland. where rain water had been dripping on them for a century or more, may in the literary sense compare with the uncovering of Leonardo's Last Supper in the hay loft of a barn which had once been the convent church of Santa Maria delle Grazie? Indications are that these old manuscripts, which have been purchased by Col. Ralph H. Isham of New York, will turn out to

be an enormous treasure trove. is justly famous for his treatment of the rich talk of Dr. Samuel Johnson. Johnson would be but a small figure in English litwas Boswell who "Johnsonized England." Fancy the same method applied to long talks with Voltaire and other notables of the late eighteenth century! Boswell was an inveterate note-taker; he flitted from one celebrity of his time to another; he seems to have recorded his talks and his impressions, and these sadly dampened manu scripts-which nevertheless seem to be decipherable-appear to be the record of his observations and listenings. If they are all that is claimed for them, they are a great discovery.

Already, of course, we have "Boswelliana," which is made up out of Boswell's commonplace book. It is well worth while. Some of his correspondence has also appeared. It may well be that the cream of him has been skimmed. But surely there are nuggets in this mass-which includes the manuscript of the "Life of Johnson" it-self. Boswell was a great reporter. He was master of the art of sticking to his "interviewee." This story is well known: London someone asked, seeing Boswell always about, 'Who is this Scotch cur at Johnson's heels?" "He is not a cur," answered Goldsmith; "he is a bur, whom Tom Davies flung at Johnson in sport, and he has the faculty of sticking." The father of all the burs!

HOW BRITANNIA RULES THE WAVES. FREDERICK BAUSMAN in The American Mercury.

S Great Britain is not a country of A large and extended continental solidity, but a curious woven web of varying possessions and dominions, she has been driven in order to maintain her power, to the arts of intrigue beyond any other nation on earth. What is good for her today is not good for her tomorrow, and what will work vell for her in one climate will be a failure in another. The result is that the British give themselves over to the invention of plausible arguments and to persuasive, amoiguous talk among foreign nations beyond any people who have existed. Their very

dominion demands two kinds of phrases. They are, beside, the best negotiators in the world, perfectly inflexible all the while, but not in the least excitable or moved to indignation by unexpected counter proposals. He must be indeed a clever fellow who sits down at the table with one of them. As the saying is, the man who will sup with the devil must eat with a long spoon. There is no use in raging against them, no use in denouncing them as vicious, conspiring and heartless. That is what the New England Council heard when listening to an address by Henry D. Sharpe of Rhode Island. It seems almost unbelievable, but the people of Rhode Island are still somewhat bitter over the fact that the Puritans drove Roger Williams out of their colony in 1636, nearly three hundred years ago.

Perhaps the lesson from this little incident, for towns and states and nations and individuals and organizations of all kinds, is: When you celebrate, celebrate alone. If you assume that others are eager to celebrate with you, unpleasant surprises may come. If you modestly assume that others are not interested, your celebration may become more popular and more prominent than you expected.

ARMISTICE. From the New Yorker.

A N engaging incident is reported by an observer at large who chanced to be at the corner of Fourteenth street and Seventh avenue late one night when the traffic signals brought to a halt the few taxis that were awheel then. Nothing is funnier, says our observer, than the sight of a handful of cars silently waiting for cross traffic that doesn't exist. Just at this solemn lull, a gay and festive gentleman decided he was too unsteady to walk heme and hence hailed, from the center of the street, the line-up of cabs. There was no response. The gentleman pondered the remarkable fact that the world had suddenly come to a dead halt; then he took off his hat, held it reverently against his shoulder, and observed two minutes of silence with the

There was once a certain Na-zarene who would be greatly surprised to learn that he had the prime qualifications of a modern business man (vide Bruce Barton); and Cervantes would be no less surprised to learn that a modern philosopher of his own country has actually made a plea for Ouixotism as the crying need of the modern world. In each case, achieved, by the very simple process of reading the meaning backwards.

Unamuno's exposition of Quixotism originally appeared 22 years ago when Spain was undergoing the social throes incidental to rapid industrial expansion. Eight years later he issued an enlarged and revised edition, which is now offered over here for the first time. Like many others in our time,

Unamuno deplores the mechanization of life and the regimentation of humanity that are seen to result, at least for the present, from machine industrialism. Like many others, he has felt the need for an idealistic concep-tion of life to set against the nar-

rower view that now controls the world. His comment on the epi-sode of the windmills, which Sancho saw for what they were while the Don believed them to be giants, is characteristic:

Only the side sections of the church were occupied by laity, limited to close friends and relatives of Mgr. Brennan.

After the chanting of the office for the dead pontifical high mass was sung by Bishop C. E. Byrne of Galveston, Tex. The funeral sermon was preached by Arch-bishop Glennon, who referred to the useful life of Mgr. Brennan both as pastor of his church and as a student of the heavens whose knowledge was at the disposal of the world. Hundreds of St. Louis Insurance Policies Lost in the Tornado

In the tornado that struck St. Louis last Thursday, literally hundreds of policies that provided for insurance on homes and business structures were lost. Some policies were blown away, others buried deep in the wreckage where they cannot be retrieved for several days.

To obtain quick adjustment on damaged property, it is necessary to produce your insurance papers. Those who were fortunate enough to have placed their policies in a Safe Deposit Box at an institution like the National Bank of Commerce in St. Louis, where they are instantly available, have been able to file their claims without delay.

We believe that those who have paid-little heed to such things in the past will now welcome the opportunity to bring their valuable papers, such as wills, deeds, insurance policies and receipts, as well as keepsakes, to our vaults for safekeeping.

Our vaults are storm-proof, fire-proof and thief-proof, and there are 42 comfortable rooms where-you may look over your box in absolute privacy;

A box large enough for the average person can be rented for \$5 a year. Larger boxes available if needed.

Results from first treatment —or your money back

Ge now to the druggist and get a single course treatment. If you are not absolutely satisfied with the weight and health benefits gained, money for the bottle will be money for the hottle will be money to remained. If inconvenient to buy at the druggist, send \$1.00 to IRONIED TEAST CO, Atlanta, Ga, Deak 166R.

Memorize this phrase

There is ONLY ONE Duco DU PONT Duco

-it is your protection when you ask for Duco.. only du Pont makes it >> remember to look for the can with this trademark - This oval is a protection for you because only duPont can use it The can Duco comes in looks like this > get it fixed in your

mind because Duco only comes in this can never in any other.

Duco will bring new beauty into your home...It can be used on so many things...so very easily...and it dries so quickly ... Buy Duco from these Dealers 777

Night's Rest Disturbed.

Night's Rest Disturbed.

Is Nature's way of telling you "Danger Ahead." A Healthy Bladder Does Not Act at Night.

Mrs. G. W. Bushong, 1012 South East St., Bloomington, Ill., says in her own home paper, the Bloomington Pantagraph: "Lithtated Buchu tablets relieved me of bladder weakness. Was disturbed 20 to 25 times a night. I feel I am well. I tried many freatments, submitted to operation and much torture. In one week after taking Lithtated Buchu I could notice improvement. I will be glad to tell or write my experience."

Lithtated buchu is not a patent medicure. The formula is on the bottle, It cleanes the bladder as ensom salts do the bowels. The tablets cost 2c each at all drug stores. Celler Laboratory, Mechanischurz. Onio, Locally at Weltf-Wilson Drug Stores.

Do you, too, always see a "Yellow Mask"?

A YELLOWISH tinge on your teeth ... That remains no matter how often you brush. That forever deprives you of teeth beauty. That dims the pearly lustre of your naturally white teeth. Will you make a small investment

to banish that "yellow mask"? To regain the white splendor of your teeth? Without the slightest barm to the softest enamel?

Do this: Bring us the coupon below. Let us place in your hands a big 50c tube of ORPHOS TOOTH PASTE for only 29c, a saving of 21c. Use it, just as the Hollywood and Broadway stars do, and watch that "yellow mask" go and white beauty reappear. What does it? The "Tri-Calcium Phosphate" in the pleasant, tasty paste-a silky, powdery substance which leading dentists use for cleaning teeth and which slippery, old-fashioned dentifrices do not possess.

Don't keep beauty waiting longer-

phenomenal radio value made possible by radio's greatest combination of enormous sales and production facilities and the powerful radio patents!

Simple - efficient - easy to operate-beautiful to look upon-the 6-tube "Bandbox"-a national "hit"-a "home run" for Crosley!

Crosley resources-Crosley experience-Crosley dominance in the entire United States, coupled with the added impetus of patent licenses of The Radio Corporation of America, The General Elec-tric Co., The Westinghouse Co., The American Telephone & Telegraph Co., and the Hazeltine and Latour Corporations promise the greatest radio value the world has ever

This Bandbox is totally shielded. Copper shields cover coils, cadmium-plated steel covers the condensers. Wiring is completely shielded from both. The Bandbox is completely balanced. It is a GENUINE NEUTRODYNE.

The Bandbox is equipped with Acuminators - secondary adustments to be used only on weak, distant signals and when cruising for far-away stations that ordinary one-dial sets miss entirely. The "Bandbox" possesses a volume control by which strong local dancing volume can be reduced to a whisper without distortion or detuning.

The Bandbox operates with a single tuning knob which turns an illuminated dial.

The Bandbox is easily installed in console cabinets, being so designed that a few screws removed from the es-cutcheon and the bottom releases chassis from the outside metal case.

of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil as a substitute for calomel to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the skin of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c, 30c and 60c.

Somehow the evening never seems complete without this fine old ginger ale

To THINK of entertaining is to think instinctively of "Canada Dry." For there is something about this fine old ginger ale which adds a bit of distinction to every occasion and makes your home, indeed, a pleasant place to be.

The very sparkle of this famous and honored drink brings memories of some well-remembered visit to a great hotel or exclusive club. Just to pour it forth into the long-stemmed glasses is to give new charm to napery and silver and add a cheery, joyous note to the bridge game, the dinner, or the dance.

So it has been said that the evening never seems complete without this Champagne of Ginger Ales. It accentuates a welcome . . . lingers in a farewell. "I've had a lovely time" is no idle, empty phrase when recollections of truly pleasant hours warm the parting handelasp.

In all the world there is no beverage so sure to please so many people as "Canada Dry." The witchery of a wonderful flavor has made it the outstanding beverage success of all time.

Extract imported from Canada and bottled in the U.S. A. by Canada Dry Ginger Ale, Incorporated, 25 W. 43rd Street, New York City In Canada, J. J. McLaughlin Limited, Toronto and Edmonton. Est. 1890. Sold by the Goddard Grocer Co., St. Louis Crystal Water and Soda Co., J. S. Merrell Drug Co.

NEW YORK, Oct. 6 .- Speculators for the advance retained conday's stock market, but the advance was by no means uniform. Final quotations disclosed a rather sizeable list of 1 to 10 point gains,

sizeable list of 1 to 10 point gains, interspersed with a number of 1 to 5 point declines. Although many traders were absent in observance of the Jewish religious holiday, the day's sales ran well over two million shares.

Reduction in the call money rate from 4½ to 4 per cent provided the chief stimulus for the rise. The day's trade news was rather colorless in character, although market commentators stressed the relative ly low rate of steel mill activity compared with the corresponding period of last year. Activity and strength of a numb.r of the high-priced issues, particularly in the public utility group, was accompanied by rumors of increased dividends and stock split-ups, but no confirmation was available.

Comparative Rail Returns.

Final compilation o Class 1 rail-roads earnings for August showed combined net operating income of \$118,226,507, equivalent to an annular ate of return of 4.77 per cent or railroads' valuation of property

combined net operating income of \$118,226,507, equivalent to an annual rate of return of 4.77 per cent or railroads' valuation of property investment, as compared with \$132,959,651, or 5.50 per cent, in August, 1926. Railroad stocks, however, presented several points of strength. Chicago & Northwestern preferred jumped nearly 7 points to 150, the highest price in 15 years, and Atchison, Atlantic Coast Line, Gulf, Mobils & Northern, Louisville & Nashville, and Peoria & Eastern advanced 2 to 4 points. Strength of the Missouri Pacific issues was accompanied by unconfirmed reports of early action by directors to wipe up the accumulated dividends on the preferred stock.

Oils, as a group, were sluggish on unfavorable trade news, California Petroleum touching a new low for the year at 21 and the Barnsdall issues at 20 %. Lago, however, was well bought on expectations of increased earnings.

Barnsdall issues at 20 %, Lago, however, was well rought on expectations of increased earnings through the discovery of new wells, and Houston, in which a Baltimore pool is reported to be operating. Closed 5 points higher at 173 after pool is reported to be operating. The state of the state

\$3,200,000 New Jefferson Hotel Company

First (Closed) Mortgage 6% Serial Gold Bonds

Due semi-annually as shown below

Principal and semi-annual interest, April 1 and October 1, payable in Chicago or St. Louis, without deduction for Federal Income Tax up to 2%. Coupon bonds, registerable as to principal, in interchangeable denominations of \$1000 and \$500. Redeemable at the option of the Company, in whole or in part, on any interest date on 30 days' notice at

CONTINENTAL AND COMMERCIAL TRUST AND SAVINGS BANK, CHICAGO, TRUSTEE ST. LOUIS UNION TRUST COMPANY, ST. LOUIS, CO-TRUSTEE

The following information is summarized from a letter from Lyman T. Hay, President of the New Jefferson Hotel

New Jefferson Hotel Company will own and operate the New Jefferson Hotel fronting on 12th Street from Locust to St. Charles Streets in St. Louis, and on adjoining property will erect a new 13-story addition. The completed project will contain approximately 756 rooms, grill room, coffee shop, dining room and banquet halls, and also a number of retail stores.

The Jefferson Hotel has been in operation for 22 years and is well and favorably known to the traveling public. Its location is considered the equal of any in St. Louis.

Security: These bonds are the direct obligation of the New Jefferson Hotel Company and are secured by a closed first mortgage on the land, owned in fee, having an area of approximately 44,000 square feet, and the present 13-story building and the addition to be erected. In addition the bonds are secured by a chattel mortgage covering all furniture, furnishings and equipment.

The property covered by the mortgage has been valued by Preston M. Nolan, Real Estate Valuator, upon completion of the new building, at \$5,442,750, including furniture and equipment valued at \$393,175.

The Company will at all times maintain adequate fire and windstorm insurance payable to the Trustees. A surety bond has been issued by United States Fidelity & Guaranty Company guaranteeing performance of the general contract for completion of the new building and remodeling the present building.

Earnings: On the basis of their more than twenty-five years' experience in the operation of the Hotel
Atlantic and other hotels in Chicago, Messrs. Teich and Roessler estimate that after allowing
for vacancies the annual earnings available for interest, before depreciation and Federal Taxes, will be in excess of \$523,000 or over 2.7 times maximum annual interest charges of \$192,000 on these bonds. Mr. Nolan concurs in the above estimate of earnings.

Purpose of Issue: The proceeds of these bonds together with additional funds from the sale of preferred and common stock of the Company will be used to retire \$1,531,000 bonds now outstanding and to pay for the construction of the new addition and the remodeling of the present building. Sinking Fund: In addition to the serial maturities the mortgage provides for sinking fund payments, based on earnings, to be used to retire bonds of the last maturity only.

Ownership and Management: Messrs. Max L. Teich and Carl C. Roessler, owners and managers of the Hotel Atlantic, Chicago, have had over 25 years' experience in the hotel business. They will own a controlling interest in the common stock and assume the active management of the New Jeffereson Hotel.

What Dr. Caldwell Learns in 47 Years Practice

Dr. Caldwell watched the results of constipation for 47 years, and be-lieved that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time regardless of how much one tries to avoid it. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. It can not harm the most delicate system and is not a habit-forming preparation. Syrup Pepsin is pleasant tasting, and youngsters love it. It does not gripe. Thousands of mothers have written us to that effect.

Thousands of mothers have written us to that effect.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for human beings to put into their system.

In a practice of 47 years, he never saw any reason for their use when a medicine like Syrup Pepsin will empty the bowels just as promptly, more cleanly and gently, without griping and harm to the system.

Keep free from constipation! It robs your strength, hardens your arteries and brings on premature old age. Do not let a day go by without a bowel movement. Do not sit and hope, but go to a druggist and get one of the generous bottles of Dr. Caldwell's Syrup Pepsin. By HELEN ROWLAND And Still We Love Them. The first sign of a man's interest in another woman is his irrita-

bility and impatience with the one around the house. Some flattery goes to a woman's head and makes her dizzy; some goes to her heart and makes her happy; but most of it goes to her vanity, where it merely acts as an appetizer.

When a man discovers that a woman knows more than he does, it strikes him dumb-but not with admiration!

A woman loves to keep a diary and spread her soul out on paper; but a man is perfectly content to trust to his memory for the best thing he has done, and to hope that other people will forget the resu

Love is a sort of club sandwich composed of large slices of selfishness, filled with thin layers of sentiment, seasoned with passion and spiced with curiosity.

Alas, most men forget the "combination" to a woman's heart once they have lost interest in its contents.

There are two kinds of women in the world, as different as Virginia creeper and poison ivy; but so few men take the time or trouble to distinguish between them, until after they have gotten all tangled up with the dangerous variety.

A wise lover, like a good cook, is one who knows when the fire is out, and stops wasting time and energy trying to blow up the

It takes a lot of practice for a girl to be able to kiss with the technique of an expert, the enthusiasm of a widow and the reluctance of a novice-and by that time her kissing days are usually over.

If you want to give a gifl a surprise, why not give her a really tender kiss and a little convincing lovemaking?

Somehow, a woman never can be absolutely convinced that the telephone or her husband is really "busy!"

To some men, pulling out of marriage or out of a tiresome, old love affair is like pulling out of a long, dark, stifling tunnel into the fresh air and sunlight, once more.

Somehow, after a man has dictated a long, dutiful letter to his absent wife and signed it "Daddy," he feels completely absolved from all further faithfulness or "devotion" for the rest of the week.

We women used to suppress our souls; but now we are perfectly satisfied if we can just manage to suppress our hips, our ankles and our waistlines!

HE is not scared. His sound sense tells him to see his dentist twice a year—and in the meantime, he keeps his teeth clean.

You couldn't frighten him into using a dentifrice. Since boyhood he has known that the surest way to healthy teeth and strong teeth is clean teeth. When he chooses his dentifrice he selects one made to clean - one made with the sole purpose of cleaning, and cleaning better.

Most people use the same dentifrice he uses. Most dentists recommend that same dentifrice. It is Colgate's Ribbon Dental Cream-designed by Colgate & Co. with the express purpose of doing the one thing that leading dental authorities agree a dentifrice must do.

Ribbon Dental Cream is made to clean teeth, and it cleans them better by the following method: As you brush, it breaks into a sparkling, bubbling foam; in this foam is calcium carbonate, a finely ground powder that loosens clinging food particles, and polishes all tooth surfaces. Next, this foam, in a detergent, washing wave, sweeps over teeth, tongue, gums-washing all surfaces, removing the very causes of tooth decay.
